Where the Money Came from in 1944 } and How It Was Spent }	12, 13

January 12, 1945

To the People of Rutland

During 1944 the War Finance Committee for Vermont conducted the Fourth, Fifth and Sixth War Loan Campaigns, all eminently successful;—successful not alone in the amount of money raised but successful in that it enabled more than one hundred thousand Vermonters to save and at the same time furnish their government with funds to conduct the war.

In these three campaigns Vermonters purchased \$112,600,000 worth of Bonds of all kinds; \$20,450,000 in Series E Bonds and \$8,626,000 in Series F and G Bonds, and the remainder in the so-called Treasury issues.

To sell this large amount of Bonds required a good organization and a cooperative response on the part of the people. We had both.

Vermont's sales army in each of the three campaigns consisted of about four thousand men and women. People who gave of their time and effort to make these campaigns a success;—to them, as well as to the people of Vermont, I am very grateful.

As we assemble in town meeting this year with the realization that the management of our political and civic affairs is in our own hands, let us turn our thoughts to those who are fighting to preserve these rights and liberties. Let us resolve that there may be no lessening in our efforts to back them to the limit that the war may be shortened and that their return to their homes may be hastened.

FRED C. MARTIN,
Executive Manager,
War Finance Committee.

MAYOR'S MESSAGE

To the Citizens of Rutland:

It is with pleasure that I transmit this report covering the activities for the various departments of the City of Rutland for the fiscal year ending December 31, 1944.

This is the fifty-second annual report of our City. The reports of the various departments are detailed and show where and how the money of the city has been received and expended.

Our financial status at the close of 1944 differs from the situation which has confronted us each year since 1931. As of December 31, 1944, we had a surplus in operating revenue over current expenses amounting to \$20,484.04, whereas each year since 1931, we have been faced with a deficit at the close of the year.

The bonded debt was reduced by \$94,000 in 1944, which leaves the net bonded debt as of December 31, 1944, \$526,524.45. The net bonded debt as of December 31st, 1935, was \$965,751.16,—indicating a reduction of \$439,226.71 in ten years. I favor the City Council each year levying a sufficient tax to take care of the outstanding bonds as they come due and also continue the pay-as-you-go plan instead of incurring a deficit each year.

Contracts have been awarded for the erection of a Hangar at our Airport and construction thereof will commence about April 1st.

During the year, various playground activities were sponsored by the City including operation of skating rinks. An option was obtained on Rotary field and it is the intention to purchase this property and enlarge playground activities—a real necessity in our City.

The Great American Industries remodeled the old Colonial plant and this firm now has over 400 employees. However, the addition of this splendid industry has not slackened our efforts to induce additional industries to move to Rutland.

The Post War Planning Committee appointed in 1943 to make recommendations on post war work, submitted a very complete report to the City Council, which has drawn favorable comment throughout the State. In the coming election, you will have the opportunity to vote on bond issues relating to several of the recommendations in this report, all of which have to do with Post War Work.

MAYOR'S MESSAGE

11

I want to take this opportunity to express my appreciation to all members of the Civilian Defense organization. It is impossible to contact each member personally, but I trust the organization will be kept intact, in case of floods or other emergencies, so that their services and training will be available.

I want to again congratulate you citizens of Rutland who have made it possible to meet War Bond and Community Chest quotas.

Also, I wish to express my appreciation and thanks to members of the Board of Aldermen, the Post War Planning Committee, the Airport Commissioners, and all officials and employees for the loyal and efficient service they have rendered during the past year.

What does this report add up to?

It adds up to a harder time than ever, for all of us. It adds up to city government under more trying conditions than we like to face. It adds up to a triumph as well. Because of the tireless, faithful hard work and cooperative spirit of its employees, the city has been kept in running condition, and Rutland is still the same city that so many of its residents are fighting for overseas. Until Victory and after, those entrusted with city government hope to keep it so!

Respectfully submitted,

Wayne H. Temple

Mayor.

Report of the BOARD OF SCHOOL COMMISSIONERS

To the Mayor, City Council, and Citizens of the City of Rutland:

The Board of School Commissioners has been able to maintain the schools of Rutland at the usual high level of accomplishment in spite of conditions imposed by the war. We have had some anxious moments when teachers, who hold positions difficult to fill, asked for release or critical repair materials were not available. Our worries fortunately have been, thus far, unnecessary for we have been able to fill every position with acceptable teachers and have had no breakdown of equipment or building demands which were impossible to meet. We have changed our repair and replacement program to some extent but if conditions are as favorable as we now anticipate, the work that was planned for completion in 1946 will be done.

We have desired for some time to accumulate a balance large enough to permit undertaking some sizeable repair jobs which have been delayed. Owing to a decrease in the number of teachers employed and to other favorable circumstances, we have been able to close our accounts for 1944 with a balance which will enable the Board to do this. The balance shown on another page is as follows:

In deferred payments on salaries	\$8,546.00
Due employees from 12c tax carried over for January and February	2,664.00
In current expenses	11,081.84

The slate on the south side of the Lincoln School has deteriorated to such an extent that it is necessary to replace the whole of it. We estimate the cost for material, extra labor, and for the repair of the ventilating stack at \$1,100.

The heating plant at the Lincoln School is unsatisfactory and expensive to operate. When the building was erected in 1895, one tubular boiler was installed. In 1913 four rooms were added to the building and a sectional boiler installed which apparently proved inadequate so a second sectional boiler was installed. No two of these boilers will work together and the tubular boiler has reached the limit of its life. We plan to install a modern boiler, discard the old boiler, and either sell or use elsewhere the other two which still have some value.

A pair of hot air furnaces were installed at the Watkins Avenue School in 1919 to furnish heat for four classrooms. A third hot

air furnace heats the corridor. The Board is of the opinion that this system is cumbersome and that three furnaces is too many for a four room building. A single boiler with a stoker might result in more uniform heat at a lower cost.

We propose to employ a competent heating engineer to go over our heating problems and make recommendations. We estimate the cost of changes in our heating plants at \$6,600 not including labor. The work would be done by our regular repair service man.

Improvements to the grounds at Rutland High School; insulation of certain areas at Dana, Lincoln and Meldon Schools; and the purchase of additional equipment we estimate at \$4,725.

It will not be possible to carry out the full program indicated above in 1945. The Board will proceed on the program in order of importance and availability of material.

Our budget for 1945 is a little higher than in recent years because we wish to improve the service provided for the children of the City and because some items have increased in cost. A small increase for musical instruments and for visual education are justified on the ground of better use of leisure time and by the obvious necessity and economy of teaching by means of visual aids.

We propose to employ a truant officer and relieve the two school nurses of that work so that they can devote more time to safeguarding the health of our children.

A plan to eliminate all obsolete plumbing equipment was adopted a few years ago but the program was interrupted by the war. We expect this year to complete the job of modernizing the toilet facilities in all schools.

A small increase in the appropriation for books and supplies for the use of children still leaves those items rather low. The new budget calls for these expenditures:

Supplies for each child for a year	\$2.00
Text books per child for a year	1.25
(Not including the High School where pupils buy their books)	
Library books per child per year:	
Elementary schools	.25
Meldon school	.50
High school	1.00

It has been estimated that our fuel will cost \$1,700 more than the estimated cost for 1944. This item we cannot control much except by the improvement of our heating plants, more careful firing, and insulation. We will be lucky to get the fuel as long as the war lasts.

There has been considerable discussion during the year about closing the Kingsley School and about keeping the old Madison Street building for school purposes at some later date. The public has been informed through the press of the action of the Board in both cases. It is still the conviction of the Board that the City and our children would be better off with fewer school buildings.

We do not anticipate that we will need any additional elementary rooms for formal academic instruction for some years but we will need additions to and changes in school buildings so that children can be better served and so that the people of the community may use them for various community purposes.

A community canning center has been in operation for the past two summers. This year the enterprise was undertaken on a more ambitious plan than last year, in fact we operated a miniature canning factory at the Dana School. The equipment installed and the labor costs were paid out of funds from the Federal Security Agency and the Vermont State Department of Education.

The results at the canning center have been very satisfactory and much credit for those results are due to Mr. Francis Bean and Mrs. Ora Castle who supervised the project.

The value of the canning project can be seen in the following:

1. Number of pints of fruits and vegetables canned	29,552
2. Number of different persons employed for full-time or part time	16
3. Amount paid for labor	\$1,532.05
4. Number of patrons served	342
5. Expenditures:	
For equipment	\$978.75
For labor and all other items	2,630.63
Total	\$3,609.38
6. Receipts:	
From patrons	\$573.66
From reimbursement Federal Security Agency	2,485.13
Total	3,058.79

7. Excess of expenditures over receipts	\$550.59
8. Assets:	
Tin cans on hand 8,456	\$184.34
Equipment at Dana School	1,385.59
Due from War Food Administration	254.32
Total	\$1,824.25

For the past two years the people have voted a twelve cent tax for a cost of living bonus of the equivalent of 10% for school employees. This year we are asking the people for an eighteen cent tax in order to provide the equivalent of a fifteen per cent increase in the salaries of teachers and others in the school department. We strongly urge favorable action on this request so that school employees may be put on an equal footing with other city employees and to help them meet the higher cost of living.

The members of our Board have enjoyed serving the City as School Commissioners during the past year. We commend our teachers for a fine professional spirit and for their willingness to do the extra work involved in our war effort. We thank the public and all our employees for the cooperation and good will which has been shown during the past year.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS,

By F. E. Quigley, *President.*

Welding, Defense Program, Rutland, High School

Report of the SUPERINTENDENT OF SCHOOLS

To the Board of School Commissioners, the Mayor, the Board of Aldermen, and the Citizens of the City of Rutland:

This report presents some problems in education which will need consideration when plans are being made for the future welfare of our community.

The ability of man to think and to plan and to control his environment raises him above the other members of the animal kingdom. This superiority is due, in no small degree, to the long period of growth and development which is necessary to bring the child to maturity. A horse is mature at two years of age and a rabbit is mature in a few months. The amount of time any society is willing to allow for bringing children to maturity is a fair measure of the civilization of that society.

In America we have gradually extended the period that children and youth spend in preparation for life. This fact is well illustrated by figures released regarding the amount of schooling of

the draftees of the first World War as compared with those of the present World War.

	First World War	Present World War
Attended college 1 to 4 years	4.6	15.9
Attended high school 1 to 4 years	15.5	73.2
Graduate of high school	3.5	23.3
Schooling limited to grades 1 to 4	24.4	3.5

Our people have been well advised to devote more and more of the time of our youth to the development of individual talents which tend to make success in maturity more certain.

The number of children and youth in our population in relation to adults grows smaller and smaller with the passing of each decade. This process is likely to continue due to a declining birth rate and to a greater life expectancy for all of us.

The war has brought vividly to our attention the enormous productivity of America owing to the application of the sciences and to the use of every conceivable type of machine. One is bound to reach the conclusion that more and more goods will be produced with less and less labor. This being true it would seem prudent to further prolong the period of preparation and keep all young people in school until the age of eighteen or twenty. If such a policy seems advisable, we will be confronted with two major problems:

1. How shall we induce youth to stay in school?
2. What educational opportunities will be offered youth after the usual twelve years of public education are completed?

For many years the school offered a strictly academic program and expected that youth who had no stomach for that type of education would leave early. We have modified our school program, especially at the high school level, until the motor minded have as much opportunity as the academically minded. We offer music and drawing, commercial subjects and home making, industrial arts and trade school subjects, but still our young people leave in considerable numbers each year even in normal times.

To persuade young people to stay in school longer will require the united effort of all persons and agencies interested in youth. The teachers can do much to help by a better understanding of the individual child, by arranging the daily program so that each

child will be able to achieve reasonable success, and by closer cooperation with parents. The home will do its part by constantly keeping before the child the advantages of education, by insisting that school attendance is a major business and cannot be neglected, and by closer cooperation with and understanding of the school. With these two groups doing all that is possible there will still be much to be done by youth agencies of all kinds, by industry, and by civic organizations. It will be no easy job to keep restless youth in school and it will tax all the resources of the community.

After we have induced young people to stay in school we are confronted with the problem of deciding what to do with them after they have completed the usual twelve years of public school education. A number of communities have solved this problem by adding two years to the school program and reorganizing the school system on a 6-4-4 basis; six years of elementary education, as at present; four years of junior high school; and four years of senior high school. For students who desire to go to college this plan gives them the first two years of undergraduate work. For those who do not wish to continue their education above the public school level the plan provides an opportunity to receive much better training for industry, for the commercial field, and for better living.

There is no denying the fact that such a program would add to the cost of education. Better trained teachers would be required for the last two years of school and classes would be smaller, both of which cost money.

It will be advisable to organize the State into larger school districts for the purpose of an extended educational program above grade twelve. Such an organization will have great value in providing youth with a better opportunity for the special type of education he might desire in a trade school or in distributive education or in many other special fields.

This discussion is not intended as a statement of policy which should be adopted but is intended to set forth issues that must be met in some manner.

The youth problem has been an issue in the United States and will be again in the near future. A way will be found to meet the needs of our young people. We can do it locally with some State and Federal Aid or we can do nothing locally about the problem in which case Federal Agencies will probably be set up to do the job and we will wake up some fine morning and find that there are two educational systems in our community

where only one is needed. The taxpayer will foot the bill in any case.

The most important function of any school organization is to secure better and better teachers and to arrange affairs so that there will be an incentive for growth while teaching. Measured in terms of professional training, our teaching force has made commendable progress. In 1921 the teachers of Rutland, by a generous interpretation, had on the average two years of professional training, elementary teachers 1.3, high school 3.8. At the present time the average number of years of training for all teachers is four and sixteen teachers have had five years of training.

The qualities desired in teachers cannot, however, be measured entirely by years of training or by experience. Some well trained teachers are very ordinary in the class room and some poorly trained teachers with much experience are just as ordinary. The business of selecting better than average teachers is a job for there are not too many of them. Any artificial arrangement like selecting only local folks or choosing teachers because an important person recommends them puts a hopeless handicap on the process. May I say that Rutland has been unusually free from evil of appointment because of pressure.

Over a period of years the salary schedule for Rutland teachers has been greatly improved. A generous policy with respect to salaries is bound to result in better teachers. It takes time, however, to overcome the handicap imposed by long years at low rates.

Average salary for all teachers in 1918	\$ 743.
Average salary for all teachers in 1921	1,185.
Average salary for all teachers in 1931	1,503.
Average salary for all teachers in 1944	1,742.

It is evident that progress has been made in improving the professional status of our teachers and that reasonable improvement has been made in our salary schedule.

The people of the community need to keep in mind that for the benefit of our children we need to set the stage so that it is possible for teachers to be in on the ground floor on all the enterprises of the City. Our teachers do have a part in many community affairs but, to a degree, they are often of such a nature that no particular growth results from the contact. The people engaged in any occupation tend to grow narrow unless there is opportunity for them to have contacts with people in other occupations. This evil is even more pronounced in the teaching

profession because the teacher deals in the main with immature folks who seldom talk back.

Teachers, therefore, more than most classes of people need to associate with people of all classes. They need contact with the leaders and they need contact with the man in the street. They need to make an effort to merit leadership in all the enterprises of the community.

In order that teachers may be adequate leaders of youth, they need to be considered for active participation in all the affairs of the City.

Education has had no small part in the achievements of America since Pearl Harbor. I am glad to have had a small part in the success of our boys and their leaders.

Respectfully submitted,

WILLIAM W. FAIRCHILD,
Superintendent of Schools.

RUTLAND FREE LIBRARY

RUTLAND FREE LIBRARY

Report of the TRUSTEES AND DIRECTOR

City's appropriation—\$9,458.70

To the Mayor and the Honorable City Council:

Gentlemen:

In submitting the 59th Annual Report of the Rutland Free Library, prepared by Marion Humble, Library Director, and the Treasurer's Report, prepared by Prescott H. Wellman, Treasurer, I would like to acknowledge with appreciation the helpful attitude of the Mayor and the Board of Aldermen, and particularly the Library Committee of the Board of Aldermen,

toward the Library's needs and problems. We hope to merit this continued interest and confidence.

Very truly yours,

FLORENCE R. LAWRENCE,
President, Board of Trustees,
Rutland Free Library Association.

January 24, 1945

To the Rutland Free Library Association, the Honorable City Council, and the Citizens of Rutland City and Town:

REPORT OF THE LIBRARY DIRECTOR, 1944

(For Statistical Report, see City Finances Section)

A Year of Experimentation and Transition

This has been a year of experimentation in the Rutland Free Library. You—the Board of Trustees, the Library Association, and other Rutland citizens—have tried the experiment of inviting an outsider—an “off-islander,” as they say on Nantucket Island—to be your librarian, not knowing whether she could adapt her life and work to Vermont ways and winters, but hoping for greater community usefulness for the Rutland Library.

I, a newcomer and stranger to most of you, have attempted to bring you new ideas from other libraries, and from fields of popular adult education in other sections of the country, and try out some of them in Rutland, demonstrating some of the potentialities of this Library. I felt sure that there were great potentialities in the Rutland Library, not only in getting more books to more readers, but also in stimulating study and discussion of the problems which all Americans must face and help solve—community problems and world problems. The Library had for nearly sixty years been chiefly a recreational library, like so many public libraries of our country, and, like other libraries, finds itself now in a transition period, with demands for current technical, geographical, and vocational information quite different from the usual requests for love stories, mystery stories, and detective stories!

We have made only a small start in the task of making Rutland “library conscious.” I find people in nearly every group with which I meet, who have never been in the Library, or who have

not been in the Library since it was moved here from the location on West street; and many who do not even know where the Library is, even in this community of 17,000 persons!!

Our first need, in order to expand library activities at all, was more adequate financing. During January and February last year we concentrated our efforts on placing the needs of the Library before the voters, preliminary to our appeal at Town Meeting in March, for two cents of each dollar on the Grand List. You expressed your wish that the Library's usefulness be increased, by voting for that additional appropriation from the city, which gave us a city income of about \$9,400 instead of \$6,000 appropriated the previous year. The additional funds have made possible the purchase of twice as many books as we bought in 1943—I hope that all of you have enjoyed many of them—subscriptions to nearly 100 current magazines, the addition of two part-time assistants, and slight increases in the sub-standard salaries of the two full-time assistants. But the professional standard for *minimum* library service in a city the size of Rutland is \$1.00 per capita per year—\$17,000 per year; for *good* service, the American Library Association recommends \$1.50 per capita per year—\$25,000 for Rutland. We have not given you the good library service you should have, because we are still handicapped for lack of funds, and our staff is too small.

In this report, I would like:

1. To review for you a few of our 1944 achievements which seem noteworthy; some of them demonstrations of activities I think we should continue; and
2. To look into the next few years with you at some of the services which I hope that you will insist that we develop.

1. a. Comments on Statistical Report

The number of volumes in the Library is entered in the report as “36,627.” This figure is compiled from records which have been carried from year to year for many years; we are checking its inaccuracy or discrepancy by taking a physical inventory of all the books and magazines in the Library. At the next Annual Meeting of the Rutland Library Association we shall be able to report an accurate figure of holdings to you, as the inventory is about half completed.

The number of borrowers using the Library is less than one-fourth of the residents of Rutland. And the circulation of books is still decreasing, though not as much as it decreased in 1943 and 1942. The reasons why circulation decreased in 1944 are

the same as in recent years: war work, gasoline rationing, older boys and girls in out-of-school jobs, time spent by many war workers in commuting to their jobs—little time for reading. But please note that the reading of non-fiction as compared to fiction has increased; and our reference questions over the phone, and from people who come to the Library, have also increased. The Library is being used for more serious purposes than light fiction reading. Our circulation of magazines, and pamphlets from the new Information File, reached nearly 5,000 during the year, about one-fourth of the non-fiction reading. People are asking for more current information than can be found in most books. Though fewer people have come to the Library in 1944, and fewer books have been taken than in 1943, the actual routine work of the Library has taken more staff time, because of the increased amount of research work we have done for business men, for personnel directors in industrial plants, for clubwomen, and other seekers for information.

b. Talks and Book Exhibits at Organization Meetings

The Library Director and members of the staff have taken news of the Library, with exhibits of books, in talks to many organization meetings, outside the Library, including:

- Parent Teachers' Association meetings at
Cheney Hill School (Rutland Town)
- Dana, Lincoln, and Kingsley Schools
- The Lions' Club
- The Chamber of Commerce annual dinner for "newcomers"
- The Coordinating Council
- Catholic Daughters, Court Gaffney Chapter, communion breakfast
- Society of St. Anne
- Catholic Woman's Club
- The 4-H Club meeting at Community House
- The D. A. R. at their Annual meeting, and their Christmas meeting
- The Community Club
- Rutland Hospital School of Nursing
- Home Study Club
- Universalist Church Sunday school Mother's Day service
- Woman's Society of Christian Service of the Methodist Church
- Book Club of the American Association of University Women
- The Rural-Urban conference of the Rutland Woman's Club

In many cases we have circulated books at these meetings, some to men and women who had not previously used the Library.

c. Meetings of Groups in the Library

We have invited—and urged!—groups and organizations to make it a habit to hold at least one meeting a year in the Library—in order to become better acquainted with our facilities for education and recreation. Many have taken advantage of this invitation, including:

The American Association of University Women held their opening meeting of the year here, with Mr. Hanson Hwang of the Harmon Foundation as speaker, showing the first of a series of films of China.

The Rutland Woman's Club held their Literature and Art meeting here in October, with the president of the Mid-Vermont Artists and the Library Director as speakers.

The Rutland Woman's Club International Relations Committee have held several meetings with films, books, discussion on China.

The Mid-Vermont Artists, several regular meetings.

Friends in Council held their recent January meeting here, with films and recordings from Russia, and books and magazines.

Rutland Town teachers came to hear a talk by the Library Director, and tour the Library.

Rutland County Ministerial Association held a regular meeting here; talk by Director about books on current social and economic books, religious books, and a tour of Library.

Recreation Council, public meeting, film showing.

Green Mountain Club, Annual Meeting, May 27; and meeting with Rutland County Nature Study Society, November 4.

Regional library workshop, June 20-21.

Two meetings of executive committee of Vermont Library Association.

Several meetings of Boy Scout troops and patrols, and one meeting of Scout cubs, when their regular meeting places were not available.

A few teachers have brought their classes to visit the Library; and a few Brownie leaders have brought their groups. Mrs. Fuller, our Children's Librarian, has used each occasion for a little talk on how to use the Library in supplementing school work.

These meetings have all been important, because each has brought a few new people to the Library.

d. Cooperation with Harmon Foundation, Film Producers and Distributors

Most important in the demonstrations we have tried to make, of library centered community activities, has been the showing of films in the Library, made possible by the free loan of a silent movie projector, and films every two or three weeks, from Miss Mary Brady, director of the Harmon Foundation of New York City. Miss Brady believes in public libraries as educational and cultural centers where people of all ages, all types of groups, all religions, employers and employees, rich and poor, meet for reading, for study, for ideas, for information, for discussion. The Foundation, concerned with promoting better understanding among nations and races, has sent us 8 sets of films on China, on Africa, and on the American Indian. We have shown the films at six evening meetings, and to eight Saturday morning groups, ranging in number from 10 to 300. In addition, we showed some of the China films at the Cheney Hill School, and they have been borrowed by Castleton Normal School, by Dana School, Meldon School, Rutland High School, Pittsford Community Center, Sanatorium and Preventorium; and Mr. Bergstrom of the Agricultural Extension Service has shown three of the films to several rural community groups.

Most important, in our cooperation with the Harmon Foundation, was a request from the Foundation for our help in making a film about rural libraries and agricultural extension services which is to be sent to China by the Department of State, to be used in Chinese schools, with Chinese captions. We made dates for Mr. Hanson Hwang, the Harmon Foundation photographer, with Miss Bates of the Bookwagon, and with Mr. Bergstrom and Mr. Walker of the Agricultural Extension office, and the film has been made, in spite of difficulties of travel to rural schools.

Other film showings at the Library, with talks and discussion, have been given by Sergeant Scheffler of the WACS; by Mr. Francis Bean of Rutland High School and Mr. Bergstrom, in a series of discussions of gardening and insect pests; and by Mr. Rufus Brown, manager of Coca-Cola Bottling Co. Mr. Brown, and Mr. Sargent, principal of Meldon School, and Mr. Frank Wilson of the Athletic Store, have been most helpful with loans of screens, sound projectors, and their own personal services, when we needed them.

Each film showing in the Library has brought newcomers; one Saturday morning, about 50 children who had never had library cards applied for them. Each film showing has stimulated reading of books on the subject of the picture. I am convinced that documentary films are a more effective means of

attracting people—including children—to the Library, than the Story Hour. A film interests persons of a wider range of ages than most stories. We have had children of four, grown-ups of 60 years old, and all ages between, attentive at these movies in the same audience.

e. Radio Broadcasts

Another new feature in 1944, demonstrating an activity which I hope can be continued, was a series of weekly radio broadcasts starting February 16th, in which the Library Director talked of books and the Library, and on one occasion interviewed our beloved Rutland author, Margaret Warde—Edith Dunton. Each week a few new friends were made for the Library. We are grateful to Mr. Jack Weiss, owner of Station WSYB, for making this demonstration possible.

f. Recordings

Our small collection of records, and the Victrola presented to us in 1943, have been used by:

- Two groups studying Spanish, using the Languagephone records
- Mount St. Joseph Academy Music Department—Gregorian chants
- Friends in Council—Songs of the Red Army, and Russian folk songs
- Pittsford High School Spanish class
- Many individuals, including service men on leave, who have played records in the Lounge, and others who have borrowed records to play at home.

g. Library Station in Reardon's Grocery Store

A little collection of about 50 books was sent to Mr. Reardon's Grocery at 101 River Street, after discussion with several west-side residents, and several of the Sisters at Mount St. Joseph Academy about a suitable location for a library station especially for mothers and children in the western part of the city. The books have been changed several times; special requests have been filled; the circulation has been 5 or 6 books a day, totalling about 775 books in several months.

h. Library Exhibits

Some of the exhibits have been new, some, repeat performances. The Rutland Herald has generously cooperated by announcing them all. They have included:

Prize-winning posters, Air-WAC contest, February
 Books and magazines for Lenten reading (March-April)
 Garden books and seed catalogs (Easter Week)
 Flower and garden paintings, Mid-Vermont Artists (Easter Week)
 Boys' and Girls' art work, Mid-Vermont Artists, May 15-20
 Books by Rowland Robinson, May 14
 Summer exhibition, Mid-Vermont Artists, June 2-October
 Arts and crafts exhibition, State Department of Education, Mrs. Rebecca Williams, speaker, June 15-16
 American Institute of Graphic Arts children's book exhibit, November 6-18; and new books for Children's Book Week
 Winter exhibition, Mid-Vermont Artists, October to date, Main floor
 Old Rutland pictures and daguerreotypes of the James B. Porter family, gifts of Dr. Porter's great-grandchildren, December-January

Those are some of the things we have done. I do not think we have given you "good" library service; but, in spite of our handicap in a small staff, we have never said to you "we haven't time," whether you asked us to speak, or to look up some information for you.

Only a few people, comparatively speaking, however, have made real use of the Library. With a larger staff, we could have taken exhibits and talks to *more* organization meetings. We could have carried the experiments that seemed successful, further.

2. What of the Future?

A list of some of the Library needs, prepared by the Library Board and the staff, has been sent to the Mayor's Postwar Planning Committee. I'd like to suggest a few of the activities we should *now* plan for this year and next, if the community will support our appeal for more funds at March Town Meeting, to make these activities possible.

a. The addition of at least one person to the staff, which will make possible more visits and talks and exhibits outside the library, and more contacts by the Library Director and staff with teachers, program organizers, employment managers, the U. S. Employment Service, especially the Veterans' Bureau. Additions to our book collection should be made after consultation with these and other educators in Rutland.

b. More library stations or branches, with library staff members at hand several times a week to circulate books, and for consultation about books and magazines. I hope that some day we can have a store building branch near the center of town, open at lunch and supper hours, convenient to working people.

c. There is a great need for instruction in the use of books and libraries, in grade, junior high, and high school. Good library service would include such instruction, in cooperation with teachers and school librarians. Such instruction helps build effective use of books in college and technical school, and in adult life. Such instruction might cut down or prevent the abuse of books—the mutilation of many of our reference books—from which we now suffer.

d. There should be a survey of the interests of people of this community, their church and organization memberships, their occupations, their recreational and educational desires and needs; and purchases of library books and magazines should be guided by those expressed personal interests and desires. Let's find out by actual study what Rutlanders want from their Library; probably we need more books on child care; soon we will need more books on jobs for returning service men. Such a survey might be made in cooperation with the recently formed Recreation Council, which hopes to bring the facilities of buildings like the Library into wider usefulness.

e. This Association through the Board of Trustees, ought to start planning how to secure a change in the City Charter, through the State Legislature, so that the Board of Aldermen would be empowered to make adequate annual appropriations for the operation of the Library, and not be limited as by the Act of 1908, to a grant of 5 per cent of the Grand List.

In closing, I want to express special appreciation to the Rutland Herald editors and reporters who have so sympathetically helped us interpret the Library to Vermonters; to the members of the Mid-Vermont Artists who have made the Library so friendly and gay with paintings and exhibits; to the many friends who have presented us with books, magazines, and pictures; to members of the Library Board, who have not too often said "But *this* is Vermont," but who have enthusiastically supported the staff in most of our recommendations; to a loyal, hard-working, underpaid staff; and especially to Mrs. Edwin W. Lawrence, who as president of the Library Board has sacrificed her time and personal obligations in unselfish service to the Library and the community.

Respectfully submitted,
 MARION HUMBLE,
Director, Rutland Free Library.

January 24, 1945.

Richard H. Royce

Report of COMMISSIONER OF PUBLIC WORKS

The Honorable City Council, Rutland, Vermont:

Gentlemen:

In compliance with the charter of the City of Rutland I am herewith submitting the annual report of the Department of Public Works for the year ending December 31, 1944, including the work done during the first seven months when Mr. R. H. Royce was commissioner.

The Department personnel and myself were shocked and saddened by the sudden death of Mr. Royce while on duty on the afternoon of July 24th. His knowledge of the conditions and requirements of the city brought him to the forefront in the planning of the postwar projects now being placed before the voters of the city for approval. The passing of Dick was a distinct and irreplaceable loss to the Department and the city.

PUBLIC WORKS

37

This department has tried to maintain its municipal functions in a manner consistent with economy of operation and preservation of the health and security of the people it serves.

Departmental balances of \$12,497.63 have been returned from the unexpended appropriations for the use of the General city expenditures. The gross operating costs of the department were \$87,889.45, a decrease of \$2,356.30 over the corresponding period in 1943. Again, as in the past two years, new construction was deferred due to war-time restrictions.

The Street Department maintained its 60 miles of streets in a creditable manner with war-time conditions prevailing. Many streets, notably Park Street, Granger Street and South Street, were ripped up, re-shaped, rolled and given two applications of asphalt with pea stone rolled in on the final application of asphalt. The department applied to the various streets 34,410 gallons of asphalt and 20,996 gallons of tar which was mixed with 1,209 cu. yds. of sand and 54 cu. yds. of pea stone covering an area of 191,707 sq. yds. 200 cu. yds. of sand mixed with 3,400 gallons of tar made up our stockpile of cold patch material which will cure until spring when it will be available for patching of small surface breaks. Mixing of the cold patch for use the following year gives a more durable patch and also makes the material available at an earlier date than would be otherwise possible.

The heavy fall of snow and the labor shortage created many problems for the Street Department. The small power shovel was used to good advantage in loading snow in the business district. It is recommended at this time, however, that a modern full swing power shovel be purchased as soon as they become available for civilian use, for summer as well as winter work.

The Street Department also applied 1,200 cu. yds. of sand and 79 $\frac{1}{4}$ tons of salt to the streets and sidewalks during the winter months. Sand boxes were set out again this year with 11 additions making a total of 60 boxes in strategic locations.

At the corner of Woodstock Avenue and North Main Street a section of 7" reinforced concrete pavement was laid to replace a bad condition caused by settling of the pavement due to a former sewer project.

At the corner of Library Avenue and Grove Street the badly broken and uneven pavement was replaced with a new 7" reinforced concrete pavement properly drained to a re-set catch basin. State Aid was received to help defray the cost of the two pavement projects.

The Street Department also did work for other departments. At the Airport a building was moved and a drainage ditch was regraded to stop erosion.

The General Department of the Public Works Department maintained the parks; dump and incinerator; bridges; guardrails; culverts; trees; conducted Clean-Up Week; removed ashes from the City Hall and did other miscellaneous jobs. The largest project was the repair of River Street Bridge—the columns and abutments of which had deteriorated badly. The broken surfaces were cleaned, reinforced and resurfaced with cement concrete at a cost of \$805.28.

Stumps were removed from the south end of Main Street Park and fertilizer was injected into the soil surrounding the trees. It is planned to set out 31 trees to replace those removed.

The cost of care and removal of trees on the city streets increased substantially in the past year—\$1,068.67 being spent for this item in 1944.

A new concrete wing wall was built at Mussey Brook Bridge on South Main Street to replace a rough stone wall which had collapsed. State Aid was received for this project.

I would like to recommend at this time the purchase of a power lawn mower to facilitate and speed the cutting of grass in the parks, thereby leaving more time for properly attending to the other work necessary in the care of the parks.

The Sewer Department maintained the trunk, storm, sanitary and combined sewers; manholes; catch basins and services as in the past. One new sanitary sewer was extended during the year—66 ft. of 8" pipe being laid at the north end of Forest Street to accommodate the large storehouse of the Champlain Valley Fruit Co.

The main sewer on Baxter Street—from the manhole at Robbins Street 69 ft. north—was replaced with 18" reinforced concrete pipe due to the fact that the existing sewer is too close to the surface and is continually breaking. It is contemplated that this project will be continued in the future.

The Sewer Department also laid 15 new house services; rebuilt 3 catch basins; repaired 28 catch basins; repaired 6 man holes and rebuilt 2 man holes.

The Water Department during the past year installed 2 new water services; relayed 2 services and replaced 1 hydrant broken by a car.

At the Water Works Head channel improvements were carried on and another underdrain pipe was connected to the intake which should give clear water for longer periods at times of excess turbidity. Records kept at the head showed a daily average per capita consumption of 170 gallons. The daily dosage of chlorine was carried to 20 lbs. and from samples of water sent to the State Laboratory for analysis, only .013% showed presence of coliform organisms. This, I feel, is an extremely good record.

The manually operated chlorine dispensers caused a considerable amount of trouble in the past year and the chlorine house is deteriorating rapidly due to the action of the chlorine gas present in the structure.

It is recommended that a modern, fireproof structure be erected to contain a new automatic chlorinator at the site of the venturi meter house, and thus do away with an extremely troublesome and dangerous condition at the intake.

The Water Department furnished a caretaker at the municipal swimming pool during its operation. It also sandblasted and painted the pool and made a number of recommended changes.

I am glad to say that the Water Department operated within its appropriation and ended the year with an unexpended balance of \$3,634.93.

Land surveys and setting of markers on the Mendon watershed were continued as in the past. Preliminary surveys were made and plans drawn for anticipated postwar projects.

At this time I would like to express my sincere thanks and appreciation to all employees of the Public Works Department for their loyalty and their intelligent and cheerful performance of duty at any hour and in every weather.

To His Honor the Mayor, to the Honorable Board of Aldermen, and to all other city officials I wish to express my most sincere appreciation and thanks for their kindly counsel and cooperation at all times.

Respectfully submitted,

W. V. KALLIO,
Commissioner of Public Works.

Report of the PENSION BOARD

Net Cost to City—\$30,047.83

To the Honorable City Council:

Gentlemen:

For the seventh year of its operation, the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the City of \$30,047.83. This figure is explained as follows:

Total Premiums paid to Insurance Co.....	\$32,198.49
Total Benefits paid to Pensioners.....	5,760.86
	<hr/>
	\$37,959.35
Less total amount of Employees' Contributions...	7,911.52
	<hr/>
	\$30,047.83

Since the start of the Plan twenty-one employees have been retired. Of these seven have died, leaving fourteen who are still on the retired list. Three more will reach the retirement age in 1945.

At the present time there are 148 contributing members, 78 from the School Department and 70 from the other departments of the City.

Several meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

At present there are thirteen members of the Pension Plan in the armed forces: Frederick Atherton, Robert Lorette, Raymond Mooney, William Murphy, Arthur Olson, James Rice, Joseph Simonds, Lloyd Flaitz, John Davis, Helen Bailey, Edward Crowley, Edward Earle and Thomas Ross.

The budget requirements for 1945 will be \$31,000.00.

Respectfully submitted for the Committee,
ESME A. C. SMITH,
Chairman.

Report of the FIRE DEPARTMENT

To the Honorable City Council:

Gentlemen:

I hereby submit to you my report covering the activities of the Fire Department for the year of 1944.

The Fire Department responded to 409 alarms during the year, an increase of six over the previous year. The department also was called for fifteen special service calls of various nature. Three hundred thirty-nine calls were received by telephone, fifty-seven were from fire alarm boxes and thirteen were verbal calls.

The value of property endangered by fire was \$529,468.00, the insurance carried was \$467,975.00 and the insurance paid was \$71,680.26. This is about \$15,000.00 less than 1943. There were two serious fires during the year that caused damage of \$53,867.00.

The personnel of the fire department consists of twenty permanent men, twelve call men and 26 auxiliary men. The operating cost of the fire department was \$51,487.80 of which \$46,211.13

was for salaries and \$5,276.67 was for general maintenance. This was \$846.04 less than 1943.

The 1944 appropriation was \$52,353.83 and the department received \$525.00 for out of town fires, \$360.33 for gasoline used by the police department, \$141.65 for recharging fire extinguishers and \$26.00 for wiring permits, making a total of \$1,052.88. The fire department returned an unexpended balance of \$1,919.01.

Apparatus

- 1 1919 750 G. P. M. American LaFrance triple combination (Engine 2)
- 1 1924 750 G. P. M. American LaFrance triple combination (Engine 4)
- 1 1927 75 ft. American LaFrance aerial truck (Ladder 1)
- 1 1936 750 G. P. M. Buffalo quadruple truck (Engine 3)
- 1 1941 750 G. P. M. Buffalo triple combination (Engine 1)
- 1 500 G. P. M. Trailer pump
- 1 1938 $\frac{3}{4}$ ton service truck
- 1 1939 Sedan

Engine 2 and engine 4 are in poor mechanical condition and it is almost impossible to get repair parts for them. I recommend that an appropriation be made to replace Engine 2 as it will be nearly a year before delivery will be made after the order is placed.

There are several fire alarm boxes that are over forty years old and are giving some trouble during cold weather. These boxes should be replaced as soon as conditions permit.

I wish to thank all of the members of the Fire Department, the members of the Auxiliary, the department of Public Works and the Police Department for cooperation and assistance during the past year.

Respectfully submitted,

ALFRED H. KOLTONSKI,
Chief of Fire Department.

A training school was conducted last winter for the members of this department, consisting of 14 two to three hour classes on police problems and crime prevention. Plans are being made for a more extensive school this year which will be conducted mainly by instructors from the Federal Bureau of Investigation at Washington.

Bids have been advertised for by the City Purchasing Agent for a F. M. radio for the department. Without question this is a forward step in modernizing the department.

Police officials all over the country anticipate a big uptrend in crime following the war.

Several pieces of new equipment have been added to the Department, including a Thompson machine gun and a finger print camera.

Officer Francis Ryan has an honorable discharge from the armed forces and is now working for the department. Officer Donald Monette has also received an honorable discharge and expects to return to work in the near future. A request was submitted with the 1945 budget for two additional police officers for the department and I feel that additional trained men will be needed immediately following the war.

Very truly yours,
HAROLD S. POTTER,
Chief of Police.

Some of the Bicycle Patrol, Bicycle Court Judges with Chief Harold S. Potter, and Officer Frank A. Ryan.

Report of the BICYCLE PATROL

To the Honorable City Council:

During the past two years an attempt has been made to make the Bicycle Ordinance passed in December, 1940 not only a means of identification in case of theft, but also an active means of safe-guarding the life of everyone who rides a bicycle, especially children and youth. By sharing the responsibility and courtesy of traffic with other vehicles and pedestrians and by close observance of safe riding practices this can be done.

With this end in view a Bicycle Patrol, sponsored by the Parent-Teacher Council, was organized by Chief Harold S. Potter and Mrs. Lucile K. Curtis, Safety Chairman of the P. T. A. Council. The Patrol is composed of an average of six pupils from each of the Public and Parochial schools. Their duties are to warn violators and in the more flagrant cases report them to Chief Potter or his assistant.

A Bicycle Court was organized May 22, 1943 under the direction of Municipal Judge Angelo J. Spero. Six Seniors from Mt. St. Joseph and six from Rutland High were chosen by their Principals to act as Judges of the Court for one year.

Minor violations have been wisely sentenced by these Judges. Two violators needed the added authority and warning of Judge Spero.

In 1944 there were 1,400 bicycles registered. Only one serious accident was reported. That involved a bicycle and an automobile.

That the Bicycle Patrol and Court may be recognized as a Community Service and be fostered and encouraged by everyone for more enjoyment in bicycle riding is the wish of the Committee.

LUCILE K. CURTIS,
Chairman and Secretary

HAROLD S. POTTER
WILLIAM J. PAULI

OLD AGE ASSISTANCE DEPARTMENT

120 STATE STREET
MONTPELIER, VERMONT

Net Cost to City—\$19,743.85

For the information of your taxpayers the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$59,501.79 during the year January 1, 1944 to December 31, 1944.

The number of recipients in December, 1944 was 214.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance or to increase all who were found eligible after investigation. The cost of living has increased so much that about every case needs to be increased that is not now getting the maximum. The cooperation of Overseers in extending temporary aid and supplementary medical services has been very helpful.

The administrative expenses of this department have risen slightly during the biennial period but the administrative review of the Social Security Board emphasizes that the total administrative cost per case per month is among the lowest in the country.

The advice and counsel of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

WILLIAM L. SEWARD,
Director.

Report of the HEALTH OFFICER

To the Honorable City Council:

Gentlemen:

It is the pleasure of your Health Officer to submit, herewith, his annual report for 1944.

The Health Department is composed of a three-man Board of Health and a Health Officer, who also acts as plumbing inspector.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, swimming pool and other places of public assemblage.

The following contagious diseases were reported and quarantined during the year 1944:

Chicken Pox.....	226
Whooping Cough.....	56
Measles.....	19
Mumps.....	18
German Measles.....	8
Scarlet Fever.....	5
Infantile Paralysis.....	4
Total.....	336

The Chicken Pox epidemic reached its peak in May with 77 cases. The Whooping Cough cases were scattered, the largest month being July, with 18 cases. The Mumps epidemic was short lived, eleven of the 18 cases occurring in February. Three of the Scarlet Fever cases were all in one family and occurred in November. With a rather widespread epidemic of Poliomyelitis in the United States, we were fortunate in having but four cases—one in August, one in September—and two in October. One of these cases had a fatal termination. The other three recovered with no residual paralysis. All received the benefits of the Kenny treatment or modifications thereof. One case of Pneumonia and one of Undulant Fever was also reported to this office. As these cases are not quarantined, but reported only, I do not believe that this represents the true number of these two conditions present in the city during 1944.

The annual free Small Pox vaccinations were done in May. A total of 138 children received the vaccinations.

The annual free inoculations to immunize children against Diphtheria were done in October and November. A total of 182 children received this immunization. Drs. Hodsdon, Reedy and Beale of the Board of Health, assisted by Mrs. Wimet and Miss Keefe, school nurses, did the work on both of the above programs.

A total of 338 samples of water from the city's taps were sent to Burlington for analysis. These were broken down into 1690, 10 CC portions. Of these, 22, showed presence of coliform organisms or .013% contamination. This speaks well for our city's water supply and its custodians, and on several inspections trips made to the water shed, throughout the year, everything was found in excellent condition.

A total of 47 samples of water from the swimming pool were sent to Burlington during July and August. Three of these samples were contaminated. The pool was managed excellently throughout the season.

Two inspections of the city's schools were made during the year and conditions on the whole were good. In company with Mr. Cole, State Health Inspector, an inspection of the Colony House and the Women's Reformatory, was made. Conditions at both institutions were excellent from a health standpoint. Miss Koltonski and Miss Dolan are both to be congratulated on their very excellent supervision of these buildings.

The eating establishments of both the circuses which showed here in July were carefully inspected in company with Mr. Cole, as were also the eating places at the Rutland Fair.

This department investigated 93 nuisance complaints and made four plumbing inspections as well as several visits to the Great American Industries on Columbian Avenue.

On several occasions inspections of food handling establishments were made in cooperation with Mr. Cole of the State Department of Health. Two visits to Mendon were made with Mr. Tracy, State Sanitary Engineer, and the late Mr. Royce, City Engineer, to rectify an existing unsanitary condition in the water shed. We find that the State Department of Health is eager to cooperate with the city departments and we wish to take this opportunity to thank the State Department for their help.

Several talks were made to lay organizations on Community Health during the year.

Ten cases of unattended death from natural causes were investigated by the department, together with three suicides and one case of accidental death.

In closing I would like to express my appreciation for the courtesy and cooperation that I have received from the city officials, the Board of Health, the School Nurses, and the physicians and parents of the city of Rutland.

Respectfully submitted,

CHARLES D. BEALE,
Health Officer.

Board of Health

WALTER G. HODSDON, M.D.

JAMES J. REEDY, M.D.

FRED BEAUCHAMP, Phg.

Report of the DISTRICT NURSE

City's appropriation—\$450.00

To the Honorable City Council:

Gentlemen:

The Rutland Missionary Association sponsors the district nursing service of this city.

Its purpose is the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Thanksgiving baskets were provided for many deserving families by the school children, through the school nurses, Ann Wimett and Elizabeth Keefe.

At Christmas, many children were remembered with clothing. Christmas dinners were distributed to 100 families through the generosity of the ELKS, EAGLES, SALVATION ARMY, MT. ST. JOSEPH CONVENT, SENIOR CATHOLIC DAUGHTERS, JUNIOR CATHOLIC DAUGHTERS, and METHODIST CHURCH.

Two layettes were given by the Girl Scouts.

Families visited.....	71
Calls made.....	3,537
Welfare calls.....	328
Prenatal calls.....	34
Maternity cases.....	6
Paid patients.....	29
Layettes distributed.....	5
Food.....	8
Clothing.....	33
Surgical dressings.....	32
Drugs.....	47
Furniture.....	16
Bedding.....	15
Toys.....	11

The expense for the year has been as follows:

Salaries for nurses.....	\$1,585.00
This was met by the City's ap- propriation of.....	450.00

DISTRICT NURSE

53

Fees from paid patients were...	792.50
Balance paid by Rutland Mis- sionary Association.....	342.50

In conclusion, I wish to express my appreciation to Mayor Temple and all in the Charities Department, for their cooperation at all times.

Respectfully submitted,

OLIVE H. WESTIN,
District Nurse.

Report of the WELFARE DEPARTMENT

To the Honorable City Council:

I hereby submit the following report for the year 1944.

The appropriation to the Department of Charities and Corrections was \$33,525.00. The department collected \$592.16 for support of families from other towns; \$452.05 from individuals; \$2,018.75 from other sources; \$1,337.60 was transferred to the hospital account. The gross expense amounted to \$23,685.49. The net expense after refunds was \$20,622.53. A balance of \$12,902.47 remained in Charity account at the end of the year.

The appropriation for the hospital was \$10,000.00. Refunds from Towns and Individuals was \$841.18. The amount transferred from the General account was \$1,337.60. The gross expense was \$12,178.78 and the net expense \$11,337.60. No balance remained in the Hospital account.

At the City Farm 16 inmates have been cared for and 71 transients have been accommodated.

I want to thank all City Officials for their assistance and cooperation during the year and to those in the Charity Department for their efficient services.

Respectfully submitted,

O. S. BERGSTROM,
Overseer of Poor.

Report of the INSPECTOR OF BUILDINGS

To the Honorable City Council:

Gentlemen:

I herewith submit the following report of building permits for the year ending December 31, 1944:

New Houses.....	2
Complete Houses.....	1
Complete Additions to Houses.....	1
Repair Houses.....	3
Recover House with Asbestos Shingles.....	2
Porches.....	4
Private Garages.....	9
Storage Garages.....	2
Additions to Private Garages.....	3
Convert Poultry Houses into Private Garages.....	3
Poultry Houses.....	6
Additions to Poultry Houses.....	3
Sheds.....	1
Barns.....	2
Store Fronts.....	1
Remodel Manufacturing Plant (Colonial).....	1
Repair Business Blocks.....	1
Demolish Buildings.....	2

Respectfully submitted,

C. G. NOYES,
Inspector of Buildings.

Report of the MEAT AND MILK INSPECTOR

To the Honorable City Council:

Gentlemen:

I respectfully submit the following report of my activities as Meat and Milk Inspector for the year ending December 31, 1944.

Milk licenses have been issued since January 1, 1943 amounting to \$315.00, as follows:

Stores.....	62
Restaurants.....	18
Producers.....	35
Dealers.....	13
Wholesalers.....	3
Fair Grounds.....	7

Farms, dairies, and creameries have been inspected periodically, and a report submitted to the Aldermen. Over 375 milk samples have been taken and tested by the Laboratory of Hygiene, Burlington and a summary of the reports given to the Aldermen.

All animals killed in the City for human consumption have been inspected and doubtful carcasses rejected and destroyed. \$1,772.75 was received for inspections fees and turned over to the City Treasurer, as follows:

675 cattle at \$1.00.....	\$675.00
181 swine at 1.00.....	185.00
1,770 calves at .50.....	885.00
111 lambs at .25.....	27.75
	<hr/>
	\$1,772.75

Respectfully submitted,

N. H. COX,
Meat and Milk Inspector.

Report of the CITY ATTORNEY

*The Honorable City Council,
City of Rutland, Rutland, Vermont:*

Gentlemen:

I, hereby, submit my report as Attorney for the City of Rutland for the year, 1944.

During the past year, the suit for ten thousand dollars, brought by Elyse K. Robert of New York, against the Rutland County Bank, in which the city was a party defendant, was tried in the United States District Court and resulted in a court decision, in favor of the city. There is no litigation pending at this time against the City of Rutland.

A large number of minor court actions were brought during the year, in cooperation with the Tax Collector, which resulted in the collection of delinquent taxes by the Collector. In conjunction with the Overseer of the Poor, a number of insanity hearings were held at the Probate Court for the removal of the mentally ill, to the State Hospital.

Your attorney attended hearing before the Civil Aeronautics Board at Boston and, together with Commissioner Gerald McLaughlin, of the airport commission, presented evidence, showing the need of airlines coming to Rutland. It is believed that the City will soon receive airline service as the result of such hearing.

Work has been done throughout the year on revising the City Ordinances, and a large number of conferences were held with various city official and aldermanic committees. Meetings of the city council have been attended during the year, for the purpose of giving information on legal matters that came up during such sessions.

I would like to express my appreciation to the various City Officials and departments, for the excellent cooperation I have received throughout the year, to extend my thanks to Mayor Temple and the members of the Board of Aldermen for the harmonious relationships of the past year.

Very truly yours,
MILFORD K. SMITH,
City Attorney.

CONSTABLE AND TAX COLLECTOR

To the Honorable City Council:

Gentlemen:

I respectfully submit the following report of my work as City Constable and Tax Collector for the year 1944.

The collection of delinquent taxes turned over to the City Treasurer amounted to \$21,448.63 and water rent collections \$1,363.94 making a total of \$22,812.57 from January 1 to December 31, 1944.

During the year just passed 1,082 Poll, Old Age Assistance and Flood taxes were collected covering the years 1935 to 1944, inclusive.

The collection of Poll taxes was difficult in various ways due to the war mainly; many of our citizens are in our Country's Service, and others being employed outside of the state and changes of address have been numerous. Several tax sales were necessary after every reasonable effort was made for payment of tax liens on property, that were in arrears for several years, and with the assistance of the City Attorney, Mr. Milford Smith, who was of great assistance in clearing the city books of many delinquents of long standing.

I wish to express my thanks and gratitude to His Honor, the Mayor, the Honorable Board of Aldermen, City Attorney and all department heads and assistants for their usual fine aid and excellent cooperation given to me at all times.

Respectfully submitted,

JOHN J. CARBINE,
City Constable and Tax Collector.

Report of the CITY CLERK AND PURCHASING AGENT

To the Honorable City Council:

I hereby submit report of activities in the Clerk's office for the year 1944.

A total of \$9,008.94 was collected and turned over to the City Treasurer. This amount represents general city licenses, beer licenses, dog licenses and clerk's fees from all sources. (For detail see Treasurer's report on receipts.)

1,072 dogs were licensed in 1944, which is considerably in excess of the number registered in any recent year.

Owing to conditions that continue to prevent manufacture and sale of trucks, automobiles, oil burners, refrigerators, and many other items, the recording of chattel mortgages and conditional sales is very trivial.

Likewise, however, due to prevailing conditions, a considerable amount of the time of the employees is taken up in the completion and certification of forms and affidavits in connection with men and women in the Armed Forces, for which no fee is assessed.

Fishing and Hunting Licenses are sold here under the supervision of the Fish and Game Department of the State of Vermont. Approximately 2,100 licenses were sold in 1944, and the amount received from such sales remitted to the State Treasurer. The fees allowed on such licenses under the Law of the State of Vermont have been turned over to the City Treasurer.

Primary and General Elections were held during the year and the soldier voting law occasioned a great deal of extra work. Approximately 800 ballots for the General Election were sent to our citizens in various branches of the Armed Forces.

All materials and supplies for every department of the City are purchased through this office. Scarcity of materials and the necessity of filing priorities for essential items involve additional work.

A report of Vital Statistics follows:

VITAL STATISTICS

Total number of births registered in 1944.....	627

HENRY P. BATTLES,
City Clerk and Purchasing Agent.

Report of RUTLAND AIRPORT COMMISSION

To the Honorable City Council;

The past year has been one of constructive planning for Rutland's future in aviation by the Rutland Airport commission.

The commission made every effort during 1944 to construct a hangar at the airport, but lack of labor and materials blocked this plan. As early as April 17, 1944, the commission consulted with Mayor Wayne N. Temple and the airport committee of the board of aldermen on possibilities of constructing a modern hangar and decided to go ahead with the job.

The commission retained Payson Rex Webber, well-known Rutland architect, and entrusted him with the job of drawing up the hangar plans.

In June, when preliminary plans had been completed, the city made application to the War Production Board for a priority, covering the use of materials in the hangar, which it was decided should be 100 feet wide and 60 feet long, with provision made to extend the length as the demand required. Early in August the priority was approved.

On August 17, the commission closed a contract with Walter Laudenslager of Springfield, Ohio, operator of airports at Red Bank, N. J., and Springfield for the fixed base rights at Rutland airport.

On September 1, the Rutland Airport, inc., began fixed base operations at the airport, with John Laudenslager, brother of Walter, as manager. From September until the close of the year, the Rutland Airport, inc., conducted successful operations at the field and found an active interest in aviation in Rutland and surrounding towns. As many as 40 students were taking instruction before the extremely cold weather set in. From September to December 31, the Rutland Airport, inc., paid the city \$494.87 for use of the airport.

Because of difficulty in lining up materials for the hangar, the final plans for construction of the building were not finished until early in the fall. Contractors advised against starting construction of the hangar until spring, so it was decided to call for bids for the job in December, stipulating that construction must start on or before April 1.

In spite of the labor and material shortages a large number of contractors submitted bids for the general contract, heating

and electrical work. The commission was happy to award all three contracts to Rutland firms, Charles G. Noyes being low bidder and recipient of the general contract; Adams & Noe, low bidder and recipient of the plumbing and heating contract and Raymond Allard, low bidder and recipient of the electrical contract. All three contractors have ordered their materials and are preparing to start work in April.

With winter coming on and no chance of building the main hangar, the commission secured aldermanic permission to use part of the airport bond issue for construction of two T-hangars to house two Rutland Airport, inc., planes. These hangars will be part of the permanent airport equipment.

During the year the commission laid the groundwork for airline service for Rutland. The chairman attended the Civil Aeronautics Board New England hearings at Boston and intervened in the interests of Colonial Airlines of New York, Northeast Airlines of Boston and others, which have petitioned the CAB for the right to provide airline service to Rutland.

The commission also kept in contact with the New England aviation picture by sending the chairman as representative to the two New England Council aeronautics meetings in Boston.

The commission has also been in touch with state aviation officials on pending legislation, which will have effect on the future operations of Rutland airport.

The commission wishes to thank Mayor Temple, City Clerk Battles, City Treasurer Roberts, Commissioner of Public Works Kallio, the Rutland Chamber of Commerce and many others for their cooperation during the year.

The commission believes Rutland is on the right track in the aviation field and that future activity and developments will prove the Rutland airport a very important asset to our city's progress.

Respectfully submitted,

RUTLAND AIRPORT COMMISSION

Gerald E. McLaughlin
George C. Cobb
Carleton Wilson

Report of the SUPERVISOR OF RECREATION PROJECTS

Expense to the city in 1944—\$2,266.45

To the Honorable City Council:

Gentlemen:

I hereby submit my report as Playgrounds Supervisor for the City of Rutland for the year 1944.

The City of Rutland continued the Playgrounds Project, revised last year, and extended the period of operation from eight weeks to nine weeks. The experience gained in 1943 plus the extra week of operation gave the children of Rutland a well planned and well conducted program of supervision during the summer months.

Under my supervision, five playgrounds were operated. Ten assistants were responsible for the general operation of the five playgrounds, while one assistant aided in promoting the special activities conducted on each playground. I wish to express my appreciation to my helpers for a job well done. The following playgrounds were open and were supervised by these instructors:

Dana—Ralph Kehoe and Jean Smith
Park—Roderick Clifford and Betty Burditt
School—Jack Kelley and Peggy O'Connell
Watkins—William Flory and Maud Ann Wiggins
Lincoln—David Molenar and Judy Jenney

Miss Barbara Hinckley acted as assistant supervisor and special activities promoter.

General Playground activities included the use of such standard equipment as swings, teeters, slides, sandboxes, basketball courts, volley ball courts, badminton sets, horseshoe pits. Story telling, sand modeling, quilt-making, drawing and soap modeling were activities used with younger children. Costume contests, pet shows, doll contests and drawing exhibitions were offered for the first time and were well received by the young tots. A handball league was again conducted for the older boys while a softball league kept up the competitive spirit of the younger boys. The girls competed in slugball and volley ball leagues. Again

special days were given over to running off of the following events: a horseshoe tournament; a basketball free-throw contest for the boys and a similar contest for the girls; a badminton tournament; and a track meet. Total points secured in all events determined the Playgrounds Championship which was again won by the 1943 champion, Lincoln Playground after a close race with Watkins Avenue and School Street. Due to the cooperation of the pool supervisor, Mr. Ellery Purdy, free swimming lessons were given once a week to the members of each playground.

The Elks came through again with their Field and Track Day which brought to a close our second playground season. Besides the field and track events, exhibitions, between the various championship teams and the All-Stars in each league, were held. Ice cream and "cokes" were furnished to all and at the end four hundred dollars in stamps and bonds were awarded to the season's winners of prizes by Past Exalted Ruler Joseph Abel and by Alderman Fred Carbine of the Parks and Playgrounds Committee.

School Street with its available swing structures was substituted for St. Peter's Playground, and the move proved successful. This playground led in the season's attendance. Park Street playground was improved by the constructing of swing and slide structures, and this playground was considerably more popular than a year ago.

The appropriation for 1945 amounts to \$2,500, and it is hoped that the additional money can be used in buying needed structural material. All playgrounds have swing structures and most of them are equipped with teeters. It is the hope of your supervisor, that it will be possible to provide slides for all grounds. This hope is contingent on the demands of the war needs.

I wish to thank His Honor, Mayor Temple, and other City Officials, especially Aldermen Carbine, Johnson and Sherburne of the Park and Playgrounds Committee and City Clerk Henry Battles whose cooperation has made my work very happy.

Respectfully submitted,

LEO F. KEEFE,
Supervisor.

Daily sights at the Pool.

Report of the SWIMMING POOL MANAGER

*To the Committee on Parks and Playgrounds,
Board of Aldermen, City of Rutland:*

Gentlemen:

Herewith is a digest of the detailed report on the operation of the municipal swimming pool for the season of 1944, which covered a period of eleven weeks from June 12 to August 27th.

Receipts were as follows:

Sale of Tickets of Admission.....	\$1,673.50
City Appropriation for repairs.....	1,000.00
City Appropriation for deficit.....	384.29
	<hr/>
	\$3,057.79

Expenditures:

Payroll.....	\$1,251.45
Materials.....	210.24
Light, power, telephone.....	199.22

U. S. Adm. taxes.....	311.49	
Painting, repairs.....	1,085.39	
		\$3,057.79

The net cost of painting, repairing and operating the pool was therefore \$1,384.29, the amount of the appropriation cited above. Exclusive of the pre-season painting and repairs, the actual cost of ordinary maintenance and operation was \$298.90.

Attendance for the season totalled 20,223 persons, mostly children, as compared to 16,437 for the previous season of 1943. Average attendance per day was 262, including evenings, Sundays, and days when the pool was closed on account of inclement weather.

No doubt much of this increased attendance can be attributed to the policy of your Committee and Board in the complete cooperation given to recommendations for making the pool more attractive, sanitary and efficient. Continuance of this policy for another year or two should further increase attendance and receipts, to the point where the pool will be largely self-supporting.

Many of our citizens, however, are still unaware that the city pool offers a clean, wholesome place to learn to swim and enjoy this most healthful of recreations under almost ideal conditions and at negligible expense.

Sincerely yours,
 ELLERY R. PURDY,
Manager.

This picture was taken Governor's Day at the Rutland Fair 1944.

VERMONT STATE GUARD

April, 1945 is the fourth anniversary of the organization of the Vermont State Guard. While our National Guard Units have been fighting on the European and Pacific fronts, the Vermont State Guard has been fulfilling its duty on the home front.

Company A of Rutland is one of the nine companies of the First Battalion charged with the defense of the southern part of the State. The First Battalion is under the command of a Rutland man, Col. John L. Cootey, with headquarters at the Rutland Armory:

Col.	John L. Cootey	Commanding
Lt. Col.	Carl W. Lawrence	Executive Officer
Major	Weston C. Hammond	Medical Officer
Major	Charles R. Little	Liaison Officer
Major	Howard L. Slocum	Liaison Officer

Major	Willard A. Bugbee	Liaison Officer
Captain	Harold E. Stafford	Adjutant
Captain	Ralph Bugbee	Intelligence Officer
Captain	Robert G. Morse	Plans and Training Officer
Captain	Guy W. Whitcomb	Supply Officer
Captain	Gus G. Corsones	Transportation Officer
Captain	Arthur R. E. Green	Chaplain
Captain	Thomas H. Connor	Chaplain
M. Sgt.	Ray Messer	
T/Sgt.	James Haugh	
T/Sgt.	Joseph Thaville	
T/Sgt.	Maurice Gignac	
T/Sgt.	Maurice E. Walbridge	
Corp.	Robert Hyland	

ROSTER

Company A, 1st Bn. V. S. G.

As of January 31, 1945

1. *Commissioned Officers:*

Captain Howard W. Douglas
1st Lt. Peter Roberts
2nd Lt. Walter Manley

2. *Non-Commissioned Officers:*

1st Sgt. Charles Littler
Sgt. Co. Clerk Alan W. Burr
Platoon Sgt. Robert W. Mitchell
Guide Sgt. Porter J. Flanders
Platoon Sgt. Everett G. Utley
Guide Sgt. Franklin J. Wells
Mess Sgt. Francis A. Roucoulet
Supply Sgt. Clyde J. Lavallee

First Aid Corp. Ray W. Cheney
First Aid Corp. Charles F. Sanderson

Corp. John Liptak
Corp. Jack F. Phillips

Corp. Ralph B. Heath
Corp. Anthony F. Bizarro

3. *Privates First Class:*

Robert R. Osgood* Robert D. Healy
Elliott C. Doty Stanley C. Clark
William J. Razanouskos

4. *Privates:*

Paul Belock	Elton R. Bridge
Erwin E. Brown	John F. Cain
Emerson L. Frost	Albert W. Klick
Raymond E. Leonard	Robert D. Martin
David L. Rorison	Lucius S. Sheridan
Elwell C. Sherwin	Arnold W. Cook
Earl B. Fuller	Ralph M. Pearsons

5. *Inactive:*

Norman F. Pratt

6. *Discharges:*

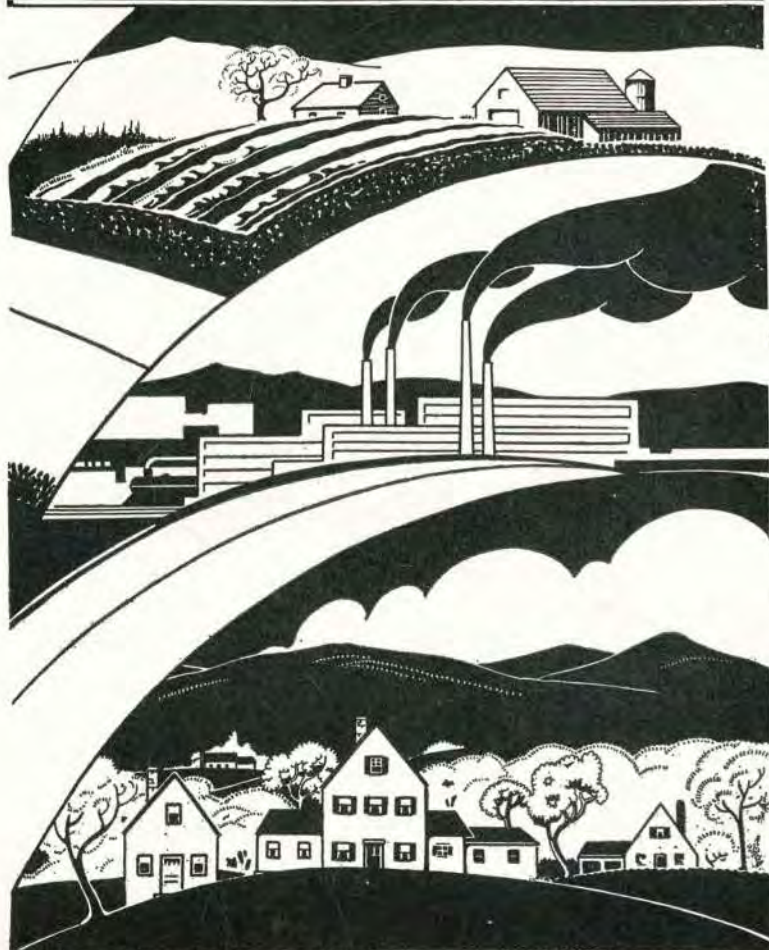

The following men were discharged during the year January, 1944 through January, 1945 to enter the federal service. Total 15

Lt. John Canfield	Francis Foot
Robert Osgood	Clayton H. Kelley
John H. Lee	Richard Heinz
William E. Ryan	Geno Malise
Charles E. Sabourin	Robert Hayes
John T. Bizarro	George G. Corsones
Richard Hamilton	John F. Roderer
George T. Wright

REPORT OF AUDITORS

March 1, 1945

To the Honorable City Council:

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of Poor, Superintendent of Schools, City Constable and Sinking Fund Commissioners, from January 1, 1944 to December 31, 1944, inclusive, and we hereby certify that in our opinion, they have duly accounted for all monies received by them, as evidenced by the books and records on file.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners and have checked incomes back to their original sources of entry and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's financial condition on December 31, 1944, and the result of operations for the twelve months period then ended.

Respectfully submitted,

A. TUTTLE PATTERSON,
WILLIAM E. FLYNN,
HARRY R. HART,

Auditors.

BIRTHS REGISTERED IN THE CITY OF RUTLAND, VERMONT

For The Year Ending December 31, 1944

(Place of birth Rutland unless otherwise stated)

Name of Child	Sex	Date of Birth	Name of Father	Maiden Name of Mother
Abraham, Bonita Jean	F	Sept. 28	Jack Walter, Jr.	Shirley E. Higgins
Adams, Bruce	M	Dec. 1	Laurence	Fern S. Goodyear
Adams, Jonathan Martin	M	Mar. 22	Albert Pearl	Margaret H. Hunt
Adamsen, Catherine Elizabeth	F	Sept. 2	Christian	Hester E. Raymond
